

John Eakins addresses meeting in Haliburton

As your new MPP for Victoria-Haliburton I will strive to look after the needs of all my constituents regardless of political affiliation stated John Eakins while addressing a Meet the New MPP night held at the Legion Hall in Haliburton last Saturday night.

Mr. Eakins made it quite clear that he didn't have the answers to all the problems but that he would be of service to everyone in the riding and would deal with each of their problems personally. He told the gathering of 150 people who sat down to dinner that he would be opening up an area office where people could come to him with their problems. He went on to say that he was more than

pleased with the large turnout and noted that there was a good representation from people from all parts of Haliburton County. He stated that he would like to get to know each one personally.

Following the dinner the Liberal supporters who had waited 38 long years to whoop it up tripped the light fantastic to the great music of Summer Fantasy. The crowd at the dance was estimated at around 300 people.

The Haliburton County Liberals are preparing for the next election right away and a large list of names came forward with those who are willing to take an active part either on the executive or as a worker for the party.

Woman in accident

A 68-year-old Campbellford woman is in satisfactory condition at RMH with a broken hip following a single car accident Wednesday about 1:30 p.m. on Highway 121 about six miles east of Minden.

Minden OPP said the car driven by Jennie Chillman of Campbellford was eastbound on Highway 121 when it went out of control on a curve, spun around backward, went into the north ditch and struck an embankment.

Damage to her 1967 car was set at \$250. Constable Bill Clendenning investigated.

A 1969 car driven by Gail Adams, 32, of West Guilford, was wrecked Wednesday about 2:30 p.m. in a single-car crash on Highway 121 about five miles north of Tory Hill.

Minden OPP said the car was travelling south on Highway 121 when it went onto the west shoulder, struck a rock cut embankment and flipped upside down onto the shoulder of the road.

Ms. Adams suffered cuts and bruises. Police report she was charged with impaired driving and driving an unsafe vehicle. Constable Jim Martin investigated.

15 CENTS

Pictured above are (from left) Mr. Len Salvatori, Mr. John Vango, Mr. Charles Wise.

Mr. Vango a General Motors District Service Manager is presenting Mr. Salvatori and Mr. Wise of Curry Motors Ltd., with Gold Wristwatches. Both these gentlemen have successfully completed 20 years in General Motor Technicians Guild. Lennie and Charlie as they are known to most, have over 55 years of service with Curry Motors Ltd.,

Heavy fine levied

A Toronto man was fined \$300.00 and costs in Minden Provincial Court on October 14, 1975, for starting a fire in a fire district without first having obtained a valid fire permit. This is thought to be one of the heaviest fines for such an offense in recent memory, according to Ministry of Natural Resources officials.

According to ministry personnel, Mr. Lembit Kova of Playter Crescent, Toronto, was burning trash on May 3, 1975, on his property in Laxton Township, 3 miles west of Highway 35 near Minden, Ontario. Minden District fire control personnel, while on special truck patrol due to the high hazard rating, observed the accused burning refuse at a time of day forbidden even to fire permit holders. He was requested three times to extinguish the fire. He refused to comply on the three separate occasions throughout the day. In assessing the fine, Provincial Court Judge, G. Inrig, of Lindsay may have taken this into account, plus the failure of the accused to either appear in person or be represented by counsel at each of the three separate hearing dates scheduled.

A Ministry of Natural Resources spokesman related that the 1975 fire season which does not end until October 31st, has been the most explosive one in at least 13 years. This year also saw a record set for largest number of fires ever occurring in the province.

Several dignitaries will deliver addresses at Library opening

John Eakins MPP for Victoria-Haliburton, Bill Rodde, Director of the Provincial Library Service and Barrie Robinson, director of the Lake Ontario Regional Library System will all be delivering short speeches

when the new headquarters for the Haliburton County Library System at Haliburton will be officially opened and dedicated this coming Sunday, October 26th at 2 p.m.

Mr. Roy Brohm who is chairman of the County

Library Board and who was instrumental in establishing the County Library System in 1965 will cut the ribbon. He was Reeve of the Municipality of Dysart when construction began on the new facility which is an expansion of the Dysart Centennial Library on Maple Street in Haliburton.

The public are cordially invited to the ceremony to view the administrative offices for the County's libraries. Tea will be served.

Official opening of Cardiff Health Centre

The new Cardiff and Area Health Care Centre which is located at 10 Hemlock Road in Cardiff, Ontario will have its official opening on Saturday, October 25th, 1975 at 1:00 p.m.

One of the highlights of the opening will be a slide and Tape Presentation of

Nurse Practitioner work and a film presentation of first aid work at Cardiff Community Centre.

Everyone is welcome to attend this official opening and we wish them the best of luck with the new Health Care Centre.

Make music together

Everyone who likes to sing in a group is invited to come to Room 1 of the Haliburton Highlands Secondard School on Tuesday, October 28th, from 7:30 p.m. until 9:00 p.m.

Once every two weeks, a happy group of people - young and old - have enjoyed making music together in a relaxed and informal way. Under the direction of Mr. Bill Gliddon, Mus. Bac., this "community choir" will be-

gin learning special arrangements of Christmas Carols, Canadian folk songs, and many other types of good choral music.

Mr. Gliddon and the members of this singing group (which began as the Haliburton County Centennial Choir, and sang throughout the county, and at Ontario Place in 1974) extend an invitation to all people in Haliburton County to join them

Trying to curb juvenile smoking

In an attempt to curb some of the under age smoking, the Minden Detachment of Ontario Provincial Police in co-operation with the schools would like to remind people of some of the provisions of the Tobacco Restraint Act, a Federal Statute.

The purpose of the Act is to prohibit the use of tobacco in any form by persons under the age of 16 years.

It is an offence to directly or indirectly sell, give, or furnish cigarettes, or cigarette papers or tobacco in any form, to a person under the age of 16 years, if the donor has reason to believe the

tobacco is for the use of that person.

The Act creates an offence for any person under 16 years who purchases or has in his possession any cigarettes, cigarette papers whether for his use or not, or has in his possession for his use any tobacco in any form other than cigarettes.

It is the duty of the Justice to determine, from anyone brought before him, where the juvenile obtained the cigarettes, papers or tobacco and refusal to give such information shall be deemed to be in contempt of court.

MR. ARTHUR LATCHAM

A vote of thanks goes to Mr. Arthur Latcham from the Residents and Administration of the Hyland Crest Senior Citizen's Home and the people of this area for his generous contribution of \$5,000.00 towards the purchase of a bus for paraplegics. Mr. Latcham is a resident of Stouffville and many of the municipalities in his area have also benefited from his numerous charitable donations.

Stackhouse stars in first televised game

The first Wednesday televised hockey game of the 75-76 season, a great gathering of relatives and fans from your home area, the third consecutive win for your team and to highlight the evening, picked first star of the game by Hockey Night in Canada.

So went the night for Haliburton's own Ron Stackhouse. Each small community in different areas of Canada usually produces an individual who excels in his chosen profession. When one stops and wonders of all our young men who endeavoured to become pro hockey players and with all their desire and skill they could not quite make the grade.

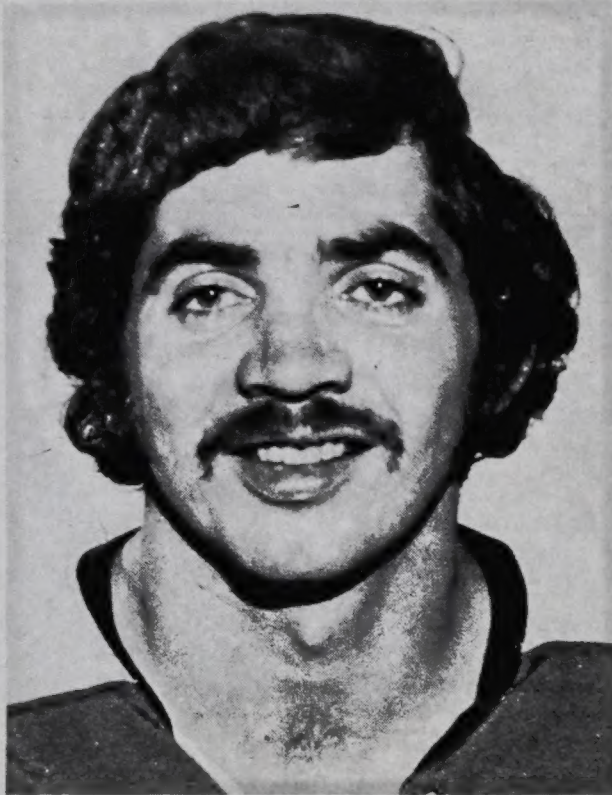

This is what people relize

now, how hard it is to make the N.H.L. and stay with it. It is just another reason to make us all proud of our association with our N.H.L.-er Ron Stackhouse.

When Ron was chosen first star last Wednesday night and he skated out in the spotlight which he so justly deserved after scoring a goal and three assists a faint smile was noticeable flashing from his face. It sure is a long ways from the old pond out behind the West Guilford School, the many trips from home out to Haliburton as he played his way through the Minor Hockey System right up to the Huskie Juniors, on the Jr. A. Peterborough Petes, then turning pro and going to Providence for his

apprenticeship then California Seals, Detroit Red Wings and finally here on the ice at Maple Leaf Gardens as a Pittsburgh Penguin and the best individual on the ice that

night. Its no wonder we traced that little smile because a feeling of pride came into all of us who know and are associates of Ron Stackhouse!

Wren Blair has done everything in hockey

Born Lindsay, Ontario. Ten Championships teams in 13 years of Senior A, B, Juniors, Minor Pro. Manager Coach, Whitby Dunlops, World Amateur champions, Oslo Norway 1958, scout Boston Bruins, signer of Bobby Orr, General Manager Minnesota North Stars, Manager Clinton N.J. Comets, owner Saginaw Mich. Gears and to date part owner of Pittsburgh Penguins and member of N.H.L. Board of Governors.

Wren has done just about everything in hockey and he thought he could cap it all by having a piece of an N.H.L. team. Lack of millions did not deter Wren Blair a hard worker and opportunist. Al, Savill of Columbus Ohio purchased the financially troubled Penguins and being a friend of Wren's through their association of the

International Hockey League and realizing his hockey ability immediately became on of his partners. This made Wren Blair the one time Oshawa milk man to become the first man in N.H.L. history to move through management ranks to the Board of Governors.

Wren Blair is not only a good hockey man, he's a good businessman. He owns the I.H.L. franchise in Saginaw, Mich. and is a partner of the summer Hockey Camp in Haliburton, Haliburton Hockey Haven. His new partners Savill and Frenzel who are in the mortgage and banking business know their way around the financial world and with Wren's hockey experience we can see nothing but future success for the Pittsburgh Penguins and Wren Blair.

Along the trails by Roy Bates

Snowmobilers hold successful meet

The annual meeting of the Haliburton County Snowmobile Association, held on Thanksgiving Weekend at the Legion in Haliburton, was one of the best attended of all meetings so far held by the club. A very good representation of cottagers, who make up 40% of the membership, was an encouraging sign.

The various committee chairmen reported in detail on the successes and failures of the past year. Fortunately, the only failure worth noting was that many previously established trails were neglected in order that the dry trails project under government funding and control could be carried to a successful conclusion. From the facts and figures brought forth, it must be concluded that the trailgrooming effort was less than satisfactory due to the very high operation costs of the equipment and method used. Some radical changes are indicated here.

Retiring President Bob Jennings spoke very highly of all the directors and their untiring efforts throughout the year. He expressed the hope that enthusiasm would continue at a high level and that there might be more active participation from the members at large. This year greater emphasis will be placed on fun activities and the program envisaged can be truly successful only with some degree of input from the members.

This writer was given a few minutes to speak on behalf of the OFSC, its successfully work in the past, its current projects, and its important place in the expanding network of North American snowmobiler organizations. The substance of my message can be summed up in a very few words, "The sport of snowmobiling must have strong organization to survive and to progress. Your snowmobile club and the Federation are providing that organization in Ontario. Support them and enjoy happy snowmobiling for years to come."

Dennis Casey, chairman of the meeting, announced the findings of the nominating committee by presenting twelve names, including seven of the retiring directors for nomination. All were accepted and six additional nominations were recorded from the floor. Approval was requested and unanimously granted to defer the election of directors until the next directors meeting October 21st. Of the eighteen nominees, twelve will be selected to form the governing board and working executive while the remaining six will be retained as directors at large. This may seem far removed from the accepted democratic electoral system but it indicated a willingness to help will be denied the opportunity by defeat at the polls. Names, positions, and distribution of duties will be reported here when they are properly sorted out.

The meeting ended with a lively question and answer period indicating a healthy enthusiasm for the club. Most questions were concerned with routing of trails, the reliability of our now out-dated map, and the lack of adequate trail marking. These only served to strengthen the board's determination to get on with the job.

Capsule Comment

The HCSA would do well to schedule more general meetings of this type. Once is not enough. It became apparent to me at this meeting that many of our snowmobilers do not know where our trails are, let alone how to follow them for any great distance. Sure, we tell them in our newsletter and in this column, but it is not that easy to correlate the printed word with an unmarked track through the woods. An open forum where members problems will be openly discussed with forthright answers given will go far to increase and hold members interest and enthusiasm.

Haliburton News Letter

At time of writing this column its raining and thats just about the kind of weather we have been having during the last few weeks. The Thanksgiving weekend, weather wise was anything but good and on Thanksgiving day it really hailed for awhile in the afternoon. So what else is new?

Victoria-Haliburton MPP, John Eakins was sworn in by Clerk of the Legislature Roderick Lewis at a ceremony held recently at Queen's Park. The freshman MPP enters the first minority house in Ontario since 1945. The session starts on October 28th.

From the reports we have been receiving it seems that all the contractors in Haliburton County are very busy and people tell us that its very hard to get a contractor at this time.

Did you know that five unlicensed automobile drivers were injured in collisions in Ontario in 1973? There were probably a few more unlicensed drivers injured than that, speculates the Ontario Safety League, but theses were all under five-years of age. Official records list them as the driver because they were behind the wheel at the time of collision. Parents are warned never to leave children in the car with the engine running or keys in the ignition -- not even for a moment.

The Glamorgan Township Volunteer Fire Department is now in operation and in case of Fire please call 447-2113 or 447-2315.

There will be a Dinner and Dance at the Hunters Horn Inn at Haliburton on Saturday, October 25th with Cocktails from 6:30 to 7:30 p.m. and dinner at 7:30 p.m. Dancing will begin at 9:00 p.m. with music by Tom Forde and his band. It's \$16.00 per couple and proceeds will go to the Sheltered Workshop. Plan now to attend.

The film "Isn't It Good To Know" was shown at the Haliburton Highlands Secondary School last Sunday.

The Auxiliary to the Haliburton Red Cross Hospital met on Tuesday, October 14th at the Board Room.

That great motion picture "JAWS" opens at the Molou Theatre in Haliburton this Friday and will run through until next Thursday. It will be shown at the Molou Theatre only.

Some of the most dangerous intersections are in residential areas, where there are narrow streets, parked cars, obstructed views. Too many drivers go tearing along impatiently or inattentively, states the Ontario Safety League, without thinking that driveways, parking lots and commercial building entrances create intersections out of what seems to be mid-block streets.

We are certainly quite pleased with the way that readers of our newspaper are enjoying our Pic of the Past. We have plenty more to send out your way so please stay with us.

Hunting season will soon be with us again and from all reports we can expect to see many bears shot this season. They tell us that they are really plentiful.

Koshlong Marina is now under new management. The new owners are Richard and Carole McLean and we welcome them to the Highlands.

Minden Monarchs create plenty of interest

The Minden Monarchs are creating plenty of interest in the area already this year. Practices have been held at local Secondary School last Tuesday evening and again Sunday morning. It being a

little early for ice to be available the team got together to do some running, exercising and a little basketball. This is just a way for them to tone themselves up for the upcoming season.

The first practice on ice will be held Tues. and Wed. evenings at 7:30 p.m. at the arena in Minden.

This years team looks like it could be a contender with such players as Darrell

Stamp, Craig Stamp, Rick Woods, Floyd Henry, Bob Woodcock, John Parish, Harris Steele, Larry Harten, Mike Jackson, Scott LaRue, Sheridan Kellett, and others who played last year and new bodies are expected to show up for try outs.

The first big game is this Friday at the Minden Arena and it will be played against Elmvalle. A good crowd is anticipated as the support last year was super and these fans can be sure that this years team will be going all out to bring them exciting hockey.

Figure Skating

Last Friday evening registration was held at the local Legion Hall for all individuals who are interested in participating in this years program. Those who could not attend can register with Mrs. Reg Brooks or the first skating date which will be announced later pending on ice installation.

Haliburton Secondary School Football

We have just received some slats of our local football team and will endeavour to keep in contact with these fellows as we realize a lot of our sports readers are very interested in this H.H.S.S. team.

The playoffs will start Oct. 30, and special football highlights will be posted.

Huskies first home game

The 1975-76 O.H.A. Junior "D" Schedule begins on November 12th with the Travelway Huskies having their first home game on Saturday night, November 15th, against Little Britain. Two new teams entering the league this year will be Wellington and Bewdley.

Haliburton hopes to have the ice in by the 1st of November and training camp the 1st two weeks of November. As yet the Huskies are without a coach for the coming season. Any one interested in coaching call Don Lloyd at 457-2218.

WOMENS HOCKEY

There will be a meeting on Wednesday October 29, at the Municipal Hall at 8 p.m. in Minden for women who are interested in playing hockey this season. Those who are interested please attend as participation in

Womens hockey has generated over the past years and a league could derive from this interest in the local area.

ADULT BADMINTON CLUB

Local people who are interested in taking part in a badminton club, Please contact Glen Scully at 457-2983. It will be played Tuesday nights at H.H.S.S.

The Crouch

The crouch is the classic position a goalie takes—with good reason. He can see more of the play, every muscle is ready for action and he's covering up the dangerous lower area of the goal mouth.

Remember these statistics: Seven out of 10 goals are scored by pucks shot below the knees. One of 10 shots above the goalie's knees finds the target. Our hands react faster to brain commands than our feet, so naturally the crouch puts our hands closer to the area the action is likely to be.

Curiously, most forwards shoot at the area between the knees and shoulders of a goalie. They don't seem to learn that low shots are best; so much the better for the goalie. By crouching like a cat ready to spring, he puts his hands right in the target area.

High Sticking

Tripping

Good safe hunting

Once again **Hunting Season** is here. The Community Services Branch of the Ontario Provincial Police remind you that there are several basic gun-handling rules.

Hunting accidents claim about 125 lives each year, usually because the most simple rules have been broken.

What can you do?

- * Never consume alcohol before, or during a hunt.
- * Know the identifying features of the game you intend to hunt.
- * Never shoot in the direction of buildings or livestock.

You cannot depend on the common sense of the Hunter beside you - wear bright

orange.

The handling of firearms requires great care.

- * Always handle a gun as if it were loaded.
- * Never climb a tree or fence with a loaded firearm.
- * Always carry your gun so that you can control the direction of the muzzle.
- * Unattended firearms should always be unloaded.
- * Few hunting deaths are accidents - they are usually caused by negligence - criminal negligence. So keep crime prevention in mind. The Criminal Code provides a stiff penalty for this offence. Don't be at either end of an "accident", use these common sense measures and enjoy a safe hunting trip.

Haliburton Highlights

It would seem that every October which is CNIB month in Haliburton County that some person or persons from the Braille Society come into the County canvassing for funds. When a canvasser calls on you this month make sure before you give a donation that the canvasser has a Volunteer CNIB sticker on his or her lapel. Check it out.

Boice Motor Sales Limited new building beside Haliburton Lumber is up and the finishing touches are being put on the new project before the Grand Opening.

The Hockey Season in Haliburton will soon be with us and it won't be long before the teams will start to train at the local arena.

Local people are starting to hook onto the sewage system in Haliburton now that it is in operation.

Newly elected MPP for Victoria-Haliburton, John Eakins was in Haliburton on Saturday night last for a meet the new MPP night.

Mrs. H. Stephanie from London, Ontario spent several days at the home of Mr. and Mrs. Jack Whitfield.

We have just received word that Arrow TV and Communications of Haliburton are expanding with another store on the Main Street of Minden, on Wednesday, October 29th.

Editorials

Food for thought

Guest Editorial by Les Parker

One day at the cottage I said to my grandson Chris, You know we old folks have sure made an awful mess of this world and I'm afraid its up to you and your generation to clean it up. In fact I'll buy you a new shovel to do the job. We've accepted and condoned corrupt governments, incompetent members of parliament. We've polluted the air, the water, and the entire earth, and its hard to believe we are so stupid but we are building cities, airports and covering millions of acres of our best agriculture land with pavements. If we don't call a halt soon, the so-called good earth won't be able to sustain us and when you think of it, Chris, for centuries we have found and millions have died for freedom, and what have we got? Very close to a socialist country. We pay taxes on our income - "even those who have a poverty line income". We pay taxes on property; capital gains tax which creates inflation and I don't believe even the government knows the multiplicity of hidden taxes. The drain upon us becomes more and more oppressive. We're even taxed after we are dead.

Little by little, our freedom is being narrowed. Even farming is now being more and more subsidized and regulated. And do you know the other day I received a dividend cheque from Bell Canada, with a letter attached telling me that in future the government says I must put my social security number on the cheque before I can cash it. Unless we stop it, the day will come when you will turn your entire income over to the government and they will give you spending money but "not much". You'll live in a subsidized home and buy your food with vouchers unless, Chris, you young people clean up the mess we old folks have made.

Chris didn't say much but his reply to my harangue I thought was quite smart. He said O.K. grampa but you'll be in this world for awhile yet so how about you getting out the old shovel and help us do a bit of cleaning up before you go.

Let's leave it for recreation

The Council of the Municipality of Dysart are considering spending a large sum of money on the interior and exterior of the old Town Hall. This will give them more room with modern up to date offices.

It has been our contention that the old building should have been torn down to make way for a new one. Council have decided differently and are going ahead with renovations to the present building.

At the present time what we are mainly concerned about is the fact that we understand that an addition will be put on the present fire hall to make it larger.

We firmly agree that the fire department need more room for their equipment but how can anyone justify the fact that when this addition goes on it means that they will once again be cutting into the recreation area at the fairgrounds. If this business continues it won't be too long before there won't even be room enough for a ball diamond. We think that most people will agree with us when we say that not one more building should be added to the present Fairgrounds. This should be left for recreation purposes only.

The answer to this problem is an easy one, just move the fire hall to a new location. Several people have suggested that a good location would be the old municipal garage site next to Kennedy Surplus and Exchange. This building could be torn down and a new fire hall erected in this location. A permanent pump could be stationed inside the new building that would service most of the main core of the Village with the Drag River right at their door step.

Lets make sure no matter what happens that we get the assurance from Council that not one more building will be erected on land that should be used for recreation.

Letter to the Editor

To the Editor:

In response to last weeks unfair and unjust editorial in the Haliburton Echo, the Chamber of Commerce wish to present a few facts to the public in case anyone is uninformed enough to take this editorial seriously.

In the past few months the Chamber has been moving ahead very successfully. The membership at this point has increased by 25 per cent, and a number of new enthusiastic people have stepped forward to serve on the new board of Directors. Eight out of the twelve elected Directors are new to the board, and the Secretary-Manager has been on the job only six weeks, and yet the editor of the Echo has seen fit to criticise these people when they have hardly had a chance to get started.

Now Consider These Facts:

(1) The Echo editorial states that the "Chamber of Commerce is nothing more than a Tourist Bureau." The fact is that only four of the twelve elected Directors are in the Tourist business, with the balance ranging from store operators to real estate salesmen. Among the committees on the board of Directors there is an Industry committee, a Public Affairs committee charged with watching, reporting on, and acting on any form of government affairs that will affect the business community, and a Special Projects committee who among other things will run seminars of interest to various business groups. Does this sound like a Tourist Bureau?

(2) The editorial then seems to suggest the Haliburton Economic Development Commission are doing a more effective job for the community. The Chamber has no argument with the importance of the work to be done by this commission, after all it was formed by the Chamber. It is however a little premature to talk of how well they are doing when we have yet to see any results. We sincerely hope there are some. Approximately \$4,500.00 of the current year's budget has been directed toward the work of this commission.

In spite of a strong protest by the Chamber of Commerce, County Council has now seen fit to separate this commission from the Chamber and has refused to appoint the new Secretary Manager to the commission. The Chamber has to indicated they will co-operate with the Economic Development Commission in any way we can. The Chamber is certainly somewhat limited in the active part it can now take in promoting industry in the county, but this decision was by no means ours.

(3) As to the group of Haliburton business men who intend to form their own association --- Let Them! Not as an alternative to the Chamber of Commerce but in addition to it. A very successful association in this county is The Lake Kashagawigamog Tourist Association. That organization belongs to the Chamber, and so do most of it's members. They do not contradict each other, they compliment each other. Personal calls have been made on almost all of the business operations in Haliburton Village during the past six weeks. None of the people that we talked to made any comments even closely resembling those of the Editor. When asked for the names of these business men the Echo was not able to give us any. We suggest to the Editor that he get out of his office and talk to the people, instead of being misled in this way by one or two negative thinkers that may drop into his office to tell their tales of gloom.

The Secretary Manager has now called on about 150 business people in this County. These people

do not hesitate to tell us what they think of the Chamber, whether it be good or bad. If Mr. Feir wants to know what the people are really saying about the Chamber all he need do is ask us.

The Secretary Manager, and the Directors of the Chamber of Commerce are always open for constructive criticism but we have no time to battle with the negative thinking that apparently prompted this editorial. Now let's get on with the job.

Haliburton Highlands Chamber of Commerce
Bob Stinson - Secretary Manager.

Dear Sir:

In reference to your column "On the Trails" (Oct. 8, 1975), we can only hope that the snowmobiling organizations will not have the power to change the Algonquin Park Master Plan as they claim. The article is full of "reasoning" which is totally one-sided and blind to the interests of thousands of citizens who do not aspire to these views.

The OFSC hopes to "conclusively establish that snowmobiling and environmental protection are compatible". We believe that this is an empty and idealistic promise, as the two goals are obviously heading in opposite directions. Either we open our parks to snowmobiles and allow fumes to pollute the air and noise to force both wildlife and all people other than snowmobilers to vacate the area, OR we leave the parks as our last refuge for people on foot, snowshoes and skis who prefer to hear the song of a bird to the roar of a machine. We hope the government decides on the latter.

Mr. Bates claims that "environmentalists, groups, conservationists, and the high-rise-wolf-lovers" (and we could well take issue with that absurd terminology!) "made many of our parks out-of-bounds to all but a few very limited recreational pursuits." Let us point out that snowmobiling is one of the most limiting recreational pursuits there is. As soon as snowmobiling is introduced, then the use of the park will truly be limited, unenjoyable for anyone who appreciates nature, wildlife and quiet. Snowmobilers appear to be remarkably narrow-minded in thinking that the only winter sport is snowmobiling. On the contrary, thousands of people who are tired of noise, pollution and lack of exercise are finding new pleasures in cross-country skiing, snowshoeing and hiking, all of which can be enjoyed only in the absence of machines.

People organizations who want to see our parks enjoyed by people are rapidly gaining in strength", claims the author. From the tone of the article, a word more appropriate than "people" would be "machines". By opening parks to snowmobiles, people's rights are being taken away for good, and once again the road of snowmobiles and the exhaust fumes take over.

It seems that this organization is preparing a strong presentation for park administrators and the government. If you are a concerned citizen and find their view offensive, then please make your feelings known! Virtually all of Haliburton, Muskoka, Hastings, Parry Sound and Renfrew are available to snowmobilers now. Let's keep our one remaining wilderness area to be enjoyed by many, not ruined by a few. Ontario can still be proud of Algonquin Park; let's keep it that way!

Yours truly,
Dorothy & Bill McCord
Margaret & Denis Trudel
(Former residents and frequent visitors to the Haliburton area)

Food Sense in Canada ENRICHED MEANS?

What does 'enriched' mean? Enriched, restored and fortified are terms used to describe foods to which extra food nutrients have been added, according to federal government inspections.

The Bakery Foods Foundation of Canada's nutrition consultant, **Joan Fielden**, says, "Even in Canada, a veritable land of plenty, the daily meals of some people are low in certain essential food nutrients. Nutrition surveys have shown that iodine, vitamin C, the B vitamins and the mineral iron are among those most apt to be low in supply."

Years ago the Canadian government set standards for the nutritional improvement of certain foods. In all cases, the foods selected or approved as carriers of added food nutrients are low cost, popular foods which are readily available to the majority of people.

There are numerous Canadian foods which are enriched or fortified. Enriched Flour, Enriched White Bread, Iodized Salt, Fortified Margarine, Vitaminized Apple Juice and Irradiated Evaporated Milk.

"The enrichment process is important as it benefits all Canadians. Basically enrichment puts back at least some of the most important vitamins and minerals that are lost in the cooking or purifying of foods," says **Joan Fielden**.

Along with the enriched products on the market one should keep their diet well-balanced. That is the key to health.

Tale of a tooth

Bill Smiley

ONE of my recurring dreams is that all my teeth are crumbling, and breaking off like toast. It's a terrible nightmare and I always wake up sweating, jam some fingers into my mouth and groan with relief when I find the teeth are still there, and with pain because I have bitten my fingers.

Today I feel that I'm having a daymare, rather than a nightmare. Last night at dinner, one of my front teeth came away in the midst of a glorious dish of curried chicken. I love curried chicken, and this time my wife had excelled herself, whatever that means, but I am not keen on curried chicken with teeth in it, even when they are my own.

However, this incident did not alarm me, unduly or otherwise. It was only my peg tooth. Every couple of months it comes unscrewed or whatever, I carefully comb it out of the soup or spaghetti, trot down to the dentist with it clutched in my hand; he dusts it off, pops it back in, cements it in place and I'm back in business, stuffing my guts.

But this morning, munching my matins (in this case a ripe yellow pear that tasted, as so much fruit does nowadays, like wet cardboard), I crunched on something hard. Now I know that pears do not have either bones or stones. They have pips. And I knew that this particular pear did

not even have a pip, because my loving wife, knowing I was one tooth short from the night before, had disembowelled it. Right, another front tooth broken off, just beside the missing peg.

There was no pain in either case. Just a sense of horror and self-disgust, as I have in the nightmare. It's bad enough to pull a filling when eating toffee, or to snap off a bit of molar when you crunch down on an unsuspected beef-bone, or even to have an aching tooth yanked. But to have one break off when eating an over-ripe pear ... Yeeecch!

I still wasn't plunged into the depths. Some people go for years with no hair on their heads (and plant articles in magazines suggesting baldies are more virile). Others go all their lives with no brains to speak of. I reckoned I could get through the day without two teeth.

And I did. But by noon, the tip of my tongue was raw and shredded, from thrusting it into that jagged crevice (crevasse?).

But I was coping. And I knew that if I hustled down to my friendly dentist, he would squeeze me in somehow, and patch me up somehow.

I should have known better. From my air force days, I know that disasters always come in threes.

Right in the middle of a brilliant lesson on the use of

four-letter words in Victorian literature (such as "legs"), somebody, somehow, rammed a red-hot needle into a tooth in my lower jaw-bone, four teeth and two spaces from the missing ones.

I almost screamed aloud. I screamed silently. The needle was removed. Two minutes later, that red-hot needle plunged into the tooth directly above (I have two teeth on that side, upper and lower, and they are fairly friendly with each other, because there is nobody else around.)

This time I couldn't help it. I emitted, "Huh!", as though someone were driving a stake through my heart. I sagged into my chair, white and shaken.

You can always depend on students. They rally around when things are tough, despite their outward cynicism. They're all heart inside that tough exterior.

"I think the old sod's havenna hardatak. Wuddell we do?"

"Jeez, I hope he hazzen godour tests marked yet, I think I failed mine."

"Maybe he's just godda bad hangover. Slap him in the face a coupla times and he might come around."

I came out of it, of course, and pretended I was enacting Heathcliff's grief in *Wuthering Heights*. When they looked as though they didn't believe me, I curled back my bottom lip and

snarled at them with my new gap-toothed look. They shut up.

When everything cooled down, I realized that my back teeth were merely expressing sympathy for my lost front teeth. It made them lonelier than ever. But they didn't have to shriek their sympathy at such volume.

My whole jaw has been aching for the remainder of this dark day, but the red-hot needle has cooled to a blunt instrument.

As soon as I finish telling you this fascinating episode of a continued story called "One Man's Fangs," I'm going straight to the dentist,

and have him rip every tattered remnant of bone out of my head.

Then I am going up to the hospital and have the calcium chipped off my right foot-bone, my gall-bladder removed, just in case it ever acts up, a heart-pacer put in, and three or four pints of blood, in the event of anemia. I might even have my ears pierced, just for the hell of it.

I don't trust the old carcass any more. If my teeth start crumbling when I'm just a broth of a boy, who knows what bits and pieces may fall off when I'm 85, as I fully intend to be?

This is your chance to see the motion picture "Jaws"

The motion picture that you have all been waiting to see is coming to the Molou Theatre in Haliburton. It's the most successful motion picture ever made "Jaws" starring Robert Shaw, Roy Scheider and Richard Dreyfuss. The novel in paperback form sold millions of copies and stores the Haliburton County could hardly keep them on their shelves due to the demand. Now you can see it all in a motion picture. It starts this Friday,

October 24th, and will be playing for seven days, Friday, Saturday, Sunday, Monday, Tuesday, Wednesday, and Thursday, October 24-25-26-27-28-29 & 30. Two shows nightly at 7:15 and 9:20.

This terrifying motion picture from the terrifying No. 1 best seller will be playing at the Molou Theatre only and large crowds are expected for every showing. You won't want to miss it.

The Parliament Buildings take on a touch of Disneyland in Victoria, British Columbia. The effect is created by stringing up hundreds of

lights. (Canadian Government Office of Tourism Photo.)

Haliburton Rotary Club news

District Governor George Green from Peterborough paid his visit to the Haliburton Club on Thursday night last.

Three new Rotarians were inducted into the club recently namely Paul Wilson, Lyn Craigmyle and Brian Black.

Miss Mary Elizabeth Phillips of Peterborough has been awarded a Graduate Fellowship for 1976-77 academic year and will be studying in Victoria University of Wellington, in Wellington, New Zealand.

The Rotary Club is planning a Ladies Night at Wig-A-Mog Inn near the end of November and it will be a steak and Lobster Feast.

The Club is looking for a new project to go

ahead with and the following are some of the suggestions which have been brought forward. New Arena Scoreboard, Sign and Scoreboard for Baseball Diamond or lights for the Tennis Courts.

At a recent meeting of the Rotary Club of Haliburton we heard a very interesting talk by a tremendously capable speaker, Mr. Norman Healey. Mr. Healey gave us his interpretation into what he believes is the cause that motivates men to greater things in their lives. Things that benefit not only the individual, but society, such as local projects that service Clubs such as Rotary undertake to benefit their communities.

The club has had a 100 per cent meeting already this month.

Services

seen from the President of the Ontario Association of Optometrists. "Decorate costumes with retro-reflective tape or iron-on material which 'lights up' when illuminated by auto headlights. Avoid masks that fit poorly, have small eye holes, or avoid masks altogether by creating disguises with

makeup instead of masks" says Dr. Lidkea. Ghosts and goblins should carry a working flashlight for a safer, happier Hallowe'en night, according to Dr. Lidkea.

He states that "Retro-reflective materials are available in tape, iron-on and

sew-on form. It may be purchased in most hardware stores and notions departments of department stores."

There are no actual guidelines for decorating with retro-reflective material. However, trick-or-treaters should be urged to remember to decorate front, sides and back of costumes with as much retro-reflective material as possible. "Studies in motorcycle safety indicate that open designs, such as open triangles, the 'bones' of a Hallowe'en skeleton, or the face made of retro-reflective tape are most visible", according to the President of the Ontario Association of Optometrists.

Minden OPP show film

The October meeting of the Haliburton County Social Planning Council will be held on Thursday, October 30th at the Lloyd Watson Centre in Wilberforce.

The meeting which will get underway at 9 a.m. will have as a guest speaker Mr. Graham Lethbridge, Director of the Regional Office No. 3, Ministry of Community and Social Services, Lindsay, and he will be speaking about the new nursing home.

Present also will be Wim

Magee of the Minden Detachment of the Ontario Provincial Police who will be showing a film.

Spending checks 'gone'

Ten years ago 495 separate votes were needed in the House of Commons to authorize Ottawa's spending.

But in 1969 rule changes reduced this number to 136, giving elected members less opportunity to vote on and criticize the various government spending proposals.

Committee chairmen, except in a minority government situation, are of the ruling party and are instructed to push estimates through as quickly as possible.

The Public Accounts Committee cannot examine the Auditor General's report on the previous year's spending until it is referred by the House of Commons. For

its own political purposes the government delays referral of the report, sometimes for as long as four years. (In Australia, by contrast, the Auditor General's report must be referred for examination within weeks of the end of the fiscal year.)

As a result, Ottawa's spending has jumped from 5.7 billion in 1965 to \$28.2 billion this year and that figure is expected to reach \$32 billion by the time supplementaries, special loans and advances have been added.

...

How can this happen?
How many small businessmen can afford to spend five times as much this year as they did in 1965?

Ontario blue grapes now on market

The 23,000 acres of vineyards in the Niagara Peninsula have been blessed with near-perfect growing weather this year, with the result that the 1975 harvest of Ontario blue dessert grapes will be bountiful and of top quality.

Harvesting operations are underway full swing in the Peninsula now, and these Ontario grown blue grapes are available at supermarkets across the province. The harvest will continue until the second week of October when the later-maturing vines are picked.

Careful steps are taken to ensure that Ontario fresh market grapes reach the consumer in perfect condition. Whereas most grapes used for winemaking are machine harvested, all grapes destined for store sales are hand picked to avoid

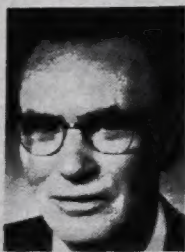

damage. Through an efficient distribution network developed by the Ontario Fresh Grape Growers' Marketing Board, grapes packaged in convenient two and four-quart baskets are delivered to produce counters anywhere in Ontario less than 24 hours after picking.

Delicious as table grapes, Ontario varieties such as Fredonia and Concord are equally suited for home processing into juice, jam, jelly and a variety of other dessert products.

Following are recipes for grape pie and grape jam — two favorites among Niagara housewives. Additional recipes for delicious grape desserts are available at no charge from: Grape Recipes, P.O. Box 745, St. Catharines, Ontario, L2R 6Y3.

Exercising Social Responsibility

A few days, or it may have been a bit before that, Prime Minister Trudeau made yet another appeal to the public to use self-restraint. I am not sure exactly when it was, for I got it second-hand from a chap who seems to spend his waking hours watching television while twiddling the dials of a radio at his side.

The chap was pretty sure it was Mr. Trudeau he heard and he was fairly sure the message had something to do with you and I and other citizens curbing what comes naturally, such as spending too much money or using too much oil. It was, then, a sort of reminder that in order to make participatory democracy work, citizens must accept some responsibility and governments ought to point out particular areas where it should be exercised.

That, however, was not the way my informant regarded the message. He scoffed at the idea anyone would heed Mr. Trudeau's plea. "Did Finance Minister John Turner get anywhere with his talk about self-control instead of mandatory controls", he jibed.

Well, no, Mr. Turner has not had much visible success. Not as yet. But that set me thinking about some other idealistic endeavors that started out getting nowhere and ended up getting accepted. An example of fairly recent vintage was business saying it could not possibly take on

social responsibilities and a little later helping to write laws to make sure it did exercise them.

Business maybe got a bit of help in changing its mind. It may have been reminded that it derives its right to exist from governments and that governments here, if not in places like Russia, are responsible to the people. But as I recall it, and I was rather close to that one, there were a good many senior executives who said that if businessmen did not know how to provide dividends for society as well as for investors, they just would have to learn, and quickly at that.

So the business have learned quite a bit and they are still learning and also are spending quite a lot of time and effort, as well as a lot of money exercising social responsibility. Some even have learned enough to be able to tell governments a bit about exercising social responsibility when party interests are involved.

For a good many years, I have moved considerably among businessmen and I have seen quite a change in them. In contrast to the storied tycoons, who only asked what was good for them and for their pals, executives now, for the most part, think a lot about what is good for the Canadian economy, for the public and for their employees. That is a lot harder, you know, than just looking after yourself.

There is another big group of people in Canada which also owes its right to corporate existence to government and so, ultimately, to the public. That is organized labor. Mostly, labor leaders are responsible people, but labor, like management has some throw-backs to an era when leaders were ruthless and preached the doctrine that "what's good for us is good for the people." You may still hear some of them say social responsibilities cannot be mixed with union business. Some even have been heard to say, to hell with the public.

That chap who sits all day watching and listening to the prophets of doom assured me that there is only one thing to be done to straighten out our troubles. The government, he declared, should clobber business, should clobber trade unions, and clobber the public. He has no use at all for those who, like Mr. Trudeau or Mr. Turner, hope that there is something to be gained by appealing to the better element to set a good example. Anyway, he just cannot wait for results.

As for me, I do not agree with him. I keep thinking of those businessmen who first said no, then thought maybe yes, and who now are well on the way to exercising social responsibilities. I keep thinking of all those labor leaders, and union members, who have learned to exercise restraint and social responsibility. Away from their jobs, all of them are plain Canadians and as a plain Canadian I do not hold that clobbering really teaches responsibility. What about you?

Honey Fruit Salad

1/3 c. honey
Grated rind of 1 lemon
(about 1-1/2 tps.)
2 tbsps. lemon juice
1 large or 2 small fresh
Ontario pears, peeled
and diced
1 c. fresh Ontario peaches,
peeled and sliced (about 2)
1/3 c. red grapes, halved
1 c. cantaloupe balls

1 c. watermelon cubes
Prepare syrup first. Combine
honey, lemon rind and lemon
juice in a small saucepan. Cook
over low heat stirring constantly
for about 5 min. Remove from
heat. Cool. Stir mixed fruit into
cooled syrup. Refrigerated.
Makes 4 cups, or 4 to 6 servings.

GRAPE PIE

4 cups Ontario blue grapes
1 1/4 cups sugar
3 1/2 to 4 tablespoons quick cooking tapioca
1/8 tsp. salt
pastry for 9-inch pie

Remove grapes from stem. Measure. Slip pulp out of skins, reserve skins. Simmer pulp until seeds loosen. Press pulp through a sieve to remove seeds. Combine pulp and skins. Add sugar, tapioca and salt. Blend thoroughly, let stand for five minutes. Pour into pastry-lined pie plate. Roll out remaining pastry for a full top cover or cut it into strips for a lattice top. This may also be baked as an open faced pie. Bake at 450 degrees F for 10 minutes, reduce heat to 350 degrees F for 20 minutes. Serve with ice cream or a dollop of whipped cream.

GRAPE JAM QUICKIE

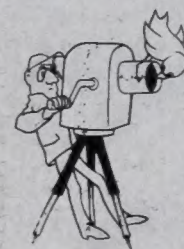

4 quarts Ontario blue grapes
sugar

Wash grapes, slip skins off grapes and reserve. Cook pulp 5 minutes in enough water to cover. Press pulp through sieve to remove seeds. Combine skins and pulp. Measure and add an equal amount of sugar. Simmer slowly until jam consistency. Pour into prepared jelly glasses, seal and store.

Niagara Grape King Ernie Reimer displays the bounty of the blue grape harvest. The Reimer vineyards, just south of Beamsville in the Niagara Peninsula, were judged the

finest in Canada in 1974. Ontario blue grapes are delicious for table use, and also lend themselves to a variety of home cooking and preserving recipes.

Man fined \$100

Robert David Aldridge of R.R. #1, Ennismore was fined \$100.00 to be paid within 30 days or 10 days in jail if not paid for false representation of his UIC Application for benefits. Judge R. Batten of Peterborough placed sentence on the 8th of October, 1975 from

information obtained by the Peterborough UIC District Office in which Aldridge stated on his application "laid off" - shortage of work, instead of "quit" which was the correct explanation of his separation from his last employment.

Obituary

Harvey Iles

A former Haliburton resident Harvey Iles passed away at Toronto on Monday, October 13th. The deceased was the beloved husband of Edna Hill.

He was the dear son of Mrs. Annie Iles of the Hyland Crest Senior Citizens Home in Minden, brother of James and Edward, both of Haliburton, and the late Val and Bert Iles.

He rested at the Turner

Hospital patients

Patients at the Red Cross Hospital in Haliburton this week are as follows: Mr. Albert LaRue, Haliburton, Mr. John Sibley, Tory Hill, Mrs. Roeske, Mr. Walter Harrison, Carnarvon, Mrs. Florence Coumbs, Wilberforce, Mrs. Ethel Swanton, Kinmount, Ontario.

and Porter Chapel, 437 Roncesvalles Ave. in Toronto, where service was held on Tuesday, October 16th. Interment Riverside Cemetery.

Median or No Median?

New school bus stopping law says vehicles must stop in both directions when drivers see a chrome-yellow school bus flashing alternating red lights, except when vehicle is on the other side of a median strip. Then oncoming vehicles may proceed, but those behind the bus must stop. If

you're not sure about medians, see above. Remember, says the Ministry of Transportation and Communications, if there's no median and you see school bus flashing lights, you must stop, both directions, in any speed zone, anywhere.

GET READY TO WINTERIZE PLANTS AND TREES

Spring is the traditional gardening season, but I really enjoy fall for working in the garden. It's cool for us humans and just right for plants. It's the perfect time for repotting, transplanting, getting plants ready for storage, and generally winterizing the garden.

When it comes to plants, bulbs are the first thing that come to most minds. Choose your bulbs carefully. Make sure you know about the type of flower it will produce, where it will grow best and whether it will harmonize with the rest of your garden. Make sure you've got good healthy bulbs, not ones that look moldy, soft, or rotted.

What do you feed bulbs? Well, neighbors, I like to use a bit of Vigoro Bone Meal in the hole and worked in so the roots can reach it. On established beds, just add the bone meal and gently cultivate it down to soil to a depth of two or three inches.

When planting new beds, remember that bulbs do better in sandy soil so it's a good idea to add some sand to the bottom of each planting hole if your bed has poor drainage. And remember, spring flowering bulbs must have time to develop roots before winter. Plant them not later than mid-October, but ask your local bulb salesman just to make sure. Plant daffodils as soon as possible after purchase; they take longer to make up their root system.

Keep in mind, too, that bulbs planted in a southern exposure near a wall will bloom earlier in the spring than those planted in a northern exposure.

In cold sections and open beds, often a protective mulch of three to four inches of straw or evergreen boughs is recommended. Remove it in the spring before the plants are more than one inch high.

Transplant peonies.

Fall's a good time to divide and transplant peonies. Cut tops to 1", dig up the plants and shake off the soil around the roots. Divide the clumps by cutting with a sharp knife. Make sure that each division has three or four basal buds or "eyes" above the roots. Remove any damaged or diseased roots. I don't like to crowd peonies with other plants in beds, simply because you get beautiful blooms when the plants are given three or four feet of growing space. Dig a deep bed for the root system - but 1" to 2" of soil over "bud eyes" is sufficient.

An application of a high phosphorus fertilizer like Pink Vigoro helps your garden along over the winter. The higher phosphorous content gives root systems a good feeding over the winter.

And, just a final word about those indoor plants of yours that have been vacationing in the garden. Many will be ready for repotting in the next size pot. For instance, if they were put out in a 3-inch pot, repot them in a 4-inch pot. (Don't think you're going to save time by

transplanting them into a 6-inch pot. You'll wait all winter for the root system to catch up.) Use a good weed-free potting soil. I've found Vigoro's potting soil is good and it's fortified with Pink Vigoro. I like to keep my outdoor "vacationers" by themselves for a week to 10 days to make sure they aren't carrying insects which might damage other plants.

Connelly - Lymburner wedding

St. Georges' Anglican Church, Haliburton, Ontario, was the setting for the marriage at 6 p.m. Sept. 27, 1975 of Susan Mae Connelly, daughter of Giles & Gladys Connelly, and Peter Wes Lymburner, son of Ollie & Perc Lymburner.

The ceremony was conducted by Rev. Denny, organist was Mr. William Glidden. The Church was decorated for Thanksgiving which made a beautiful background of coloured leaves and fruits and vegetables.

The Bride was given in marriage by her father, the bride looked lovely in a gown of white satin with pearl trim and shoulder length veil.

She carried a white prayer book with a white orchid, lily of the valley and rose buds.

Maid of honour was Kay McWalters of Newtonville, cousin of the groom. Bridesmaids

were Miss Nancy Floyd friend of the bride, Miss Penny Crowells, cousin of the bride, they carried bouquets consisting of pink and white carnations with pink rose buds.

The best man was Rick Woods friend of the groom, Ushers were Dennis Good, friend of the grooms, Harold Lymburner, Ring Bearer Peter Connelly, brother of the bride, all wearing brown tuxedos with velvet trim.

The reception was held at West Guilford Community Centre.

The brides mother wore a gown of rose Satin and wore a white gardenia. The grooms mother wore a pale pink brocade gown also with a white gardenia.

Out of town guests were from North Bay, Hamilton, Hagersville, Eau Claire, Powassan, Oshawa, Port Elgin, Tillsonburg, Dundas, Dorset and Toronto.

Peter and Susan will make there home-in Haliburton.

Victoria-Haliburton Liberals**Petition for change
of electoral boundaries**

David Walling, President, Victoria-Haliburton Liberal Association, announced today that at a recently held executive meeting, the Victoria-Haliburton Liberal Association unanimously supported a recommendation of their Electoral Boundaries Committee that the Association should make a presentation to the Federal Electoral Boundaries Commission on October 21st, 1975 in Belleville.

Mr. Walling went on to say that the Victoria-Haliburton Liberal Association made a prior presentation in 1973 wherein they recommended to the Commission that the Federal Riding Boundaries for the riding of Victoria-Haliburton should include all of the Counties of Haliburton, Victoria, and that area south of Victoria County to Lake Ontario. This presentation was supported with the idea that the natural relationship of all the people in the Victoria-Haliburton Liberal proposal was tied to the north-south by Highway 35 running through the entire area. Additionally, Mr. Walling reported that it was the intention of the Liberal Party in this area to fight strongly at this new meeting of the Federal Electoral Boundaries Commission to retain the Historical and Geographical connections now presently enjoyed throughout the riding. He also pointed out that it was the intention of the V.H.L. Party to alter their first proposal slightly, tie the boundaries directly to the recently adjusted Provincial

Boundaries of Victoria, Haliburton and Manvers Township and suggest the addition of Cavan Township and if it were necessary, because of population requirements, his party would recommend moving westerly from Manilla around Highway 7 to take in enough area to give the riding of Victoria-Haliburton the necessary population as required by the Commission.

Mr. Walling spoke strongly as regards to the Natural flow of Business and Historical ties that centre around the Townships serviced by Highway 35 and Highway 7 west.

Mr. Walling went on to say that as a past Federal

Candidate himself, he spoke personally when he observed that the riding, as it is now constituted, with Townships in Peterborough and Hastings County and the north west area of Rama seemed not to have any natural ties to the centre core of Victoria-Haliburton. The north west corner has ties with Orillia and the north east and south east area flows towards Peterborough. By confining the Federal Riding to Victoria-Haliburton, Manvers, Cavan, and then westerly, he felt all people in the riding could be better represented as the geography of the riding then became easier to service.

**Liberals are canvassing
for financial support**

Liberals in every federal constituency in Canada are canvassing for financial support during October, November and December.

In 1974, political fund raising in Canada was transformed by the Election Expenses Act.

The purpose of the Election Expenses Act, is to open completely the question of the financing of political parties. That Act encourages all citizens to support political parties financially through a generous income tax credit. The Act encourages regular annual giving. If an individual gives \$100, he or she can deduct \$75 directly from their federal income tax payable. The contribution

costs \$25. If the individual gives \$25, the contribution costs only \$6.25.

The success of this new fundraising depends on a large number of individual citizens making contributions to the party of their choice under the tax credit system - many will be financial contributors for the first time.

Liberals are not restricting their canvass to known party members. The voting public will be asked to participate. More information is available from the Liberal Party in each federal constituency, the Liberal Party Office in the province or from the National Office, 102 Bank Street, Ottawa.

St John Ambulance study effective in reducing accidents

In a speech given at the Semi-Annual Workshop of St. John Ambulance, Ontario

Council, on Saturday, October 18th at the Sutton Place Hotel, Michael Starr, Chair-

man of the Workmen's Compensation Board, Ontario, told delegates to the meeting that the investment of St. John expertise and the Board's investment of almost a million dollars in a five year research program is "getting results" in reducing accidents and saving money.

The research program known as Fact / and Facts // (First Aid Training for Community Safety) took place in Orillia, Cambridge and Guelph. The independent research was conducted by Dr. Neil Agnew, Professor of Psychology at York University and Dr. Gary Miller of the Counselling and Development Centre at York University.

Their findings from both Facts / and Facts II were that "First Aid training is positively related to the reduction in accident rates by from 20% to 30%". "This is unusually important finding", Mr. Starr stated, "... in terms of lives and limbs

saved, of suffering and grief averted, and money - money saved by the employer who keeps his accident costs down, money saved by the worker who stays healthy and productive."

Mr. Starr began his speech by comparing St. John Ambulance and the Workmen's Compensation Board and listed the things they have in common. "We both provide vitally needed services", he said. "We are dedicated to caring for the sick and injured. We are resolved to do everything we can to help prevent accidents and illnesses, wherever possible, before they occur."

To prove his point that the program is getting results, Mr. Starr named a number of companies that are training all of their employees in First Aid through St. John Ambulance, including Algoma Steel which has started a three year program to train all of its 10,000 employees in First Aid.

The program is also being adapted for use in New Zealand and England.

The balance of the day long meeting was devoted to reports and informative sessions for the 100 St John volunteers from branches throughout Ontario.

The meeting was presided over by W.E. Austin, of Oshawa, President of St John in Ontario. Others who took part in the program were Derek Buck, Robert G. Loftus, D.A. Campbell, and Lawlor Brown, Toronto; George O. Brown, Harry Sterne and Graham Thompson, Kingston; and Carl H. Seip and A. Gordon Stacey, Guelph.

Carnarvon news

We regret an error in last weeks news re the wedding of Kerry Delaney to Neil Dennison, it stated she was married to Neil Sidor, we apologize for this error.

Zion United Church was packed to capacity on Thanksgiving Sunday many extra seats had to be added. The church was beautifully decorated with colored leaves. It is very heartening to see our summer visitors come to worship with us they are just like old friends, they especially enjoy the time of fellowship together over a cup of coffee and doughnuts.

Many of our folks had visitors over the weekend. Mr. and Mrs. Phil Allcorn and family of Toronto were with Mr. and Mrs. Gordon Allcorn, also Mrs. Jean Miller of London.

The Norman Wallaces had their two daughters Margaret and Denis Trudel and baby, of Ottawa, also Dorothy and her husband Wm. McCord of Tillsonburg.

The Sinclair Russells had their son Colin, also Lt. Col. Neil Russell and wife of Trenton.

The Ross Harrison's had their son Tom and his friend Elaine.

The Wm. Chambers had their daughter and husband Mr. and Mrs. Blair Corcoran of Ottawa.

Cliff Skeldings had their daughter and husband Mr. and Mrs. Britton of Toronto, also their grand-daughter Angie Britton.

Week end visitors to The Maurice Windsors were Mr. and Mrs. Garth Windsor and boys of Belleville, also their daughter Chris and Jim Swartz of Toronto.

Mr. and Mrs. Hal Burton were in Oshawa for the weekend and staying with the Roger Harrison's family.

Mr. and Mrs. Geo. Cowen are at their cottage for a few days this week.

Mrs. Ross Harrison is

visiting for a week in Toronto with her sister Alice, Mrs. Smith, also she will visit with other friends while there.

Mr. and Mrs. Charley Brown and their daughter and her family occupied the Ross Harrison's cottage for the holiday.

Mr. and Mrs. McCleary of Brantford were visiting with Mr. and Mrs. Norman Brown.

We are happy to say that Mrs. Gloria Tomlinson is home from hospital after having surgery, and she is getting along nicely.

Mrs. Ellen Johnston on Halls Lake is home again after having eye surgery, and she is doing fine.

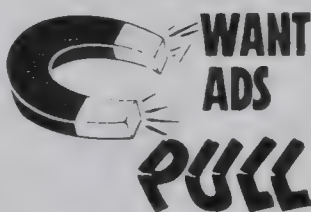

Mrs. Mel Barnhart had all her family home for Sunday when she entertained them all for Thanksgiving dinner, Jack Barnhart & family, Neil Barnhart & family, Bob Barnhart & family, Harvey Barnhart & family, also Mrs. Crewson her daughter and her son Mike.

Mrs. Grace Renouf and two daughters Luanne and Lynde, were here over the weekend.

Wilmot and Doris Thomas and their daughter Cathy of Toronto, also Laverne and Ruth Thomas of Peterborough were weekend visitors with the Francis Thomas's.

Mr. and Mrs. Wm. McKay and Mr. and Mrs. Max McKay were away for the weekend.

Congratulations to Mr. and Mrs. Bev. Hicks who were married on Saturday. Mrs. Hicks was Pat Barry of West Guilford.

Minden OPP reports

\$2800 damage in single car accident

The Ontario Provincial Police Minden Detachment report the following activity for the period of October 13 to October 19, 1975. During the above period the staff investigated 15 motor vehicle collisions and 51 general occurrences. There were four persons charged with violations under the Liquor Control Act, one person charged with impaired driving, four break and enters reported and three compassionate messages delivered.

Three single vehicle accidents were reported by the Minden Detachment of the Ontario Provincial Police during the last week, all of which occurred on Monday, October 13, 1975.

The first accident resulted in an estimated \$700. damage to a van driven by 17-year-old David G. Pettes of R.R. 2, Minden, as he was driving northbound on Highway 35 just south of Buttermilk Falls around 3:00 a.m. The vehicle left the highway and struck two guide posts, valued at \$30. on the west shoulder. Ontario Provincial Police Constable J.R. Solway of the Minden Detachment investigated the accident, and charges of failing to report damage to property on a highway and careless driving have been laid against the driver.

James G. Massie of 2597 Burnbrae Drive, Mississauga, age 18, was travelling westbound on Highway 530 last Monday, October 13, when he lost control of his car and entered the south ditch striking a rock, causing an estimated \$1500. damage. The driver and a passenger, 17-year-old Andrew Goodman of St. Catharines, complained of pain in the mishap which occurred at 1:30 p.m. and were both treated at the Red Cross Hospital in Haliburton. Constable J.E.B. Ladurantaye of the Minden O.P.P. Detachment was the investigating Officer.

An estimated \$2800 in damage was caused to a car

driven by Ronald Carter, age 27, of 10 Canadine Road, in Scarborough as the south-bound automobile entered the west ditch on County Road 3 near Gooderham

striking an embankment. Injured in the accident were the driver with a complaint of pain and a passenger, 53-year-old John B. Carter of 1 Withrow Avenue in Toron-

to, with cuts and bruises. o.p.p. Constable W.G. Popp of the Minden Detachment investigated the mishap which occurred last Monday at 5:05 p.m.

OMA to continue discussion about raising OHIP payments

The effect of federal anti-inflationary legislation on doctors' fees in Ontario is a matter of conjecture at this time, Dr. D.C. MacNeill, president of the Ontario Medical Association said today.

He said OMA officers have not yet seen copies of the bill introduced in Parliament Thursday, nor have they any advance information on the precise guidelines that are to

be developed by the proposed Anti-Inflation Tribunal.

"Until these guidelines are developed, interpreted and discussed, the OMA will continue the course of action determined by its governing council several months ago," Dr. MacNeill said. "That action is to continue negotiations with the Ontario government on the schedule of OHIP payments for medical services and at the same time

to produce a realistic fee schedule that will reflect the value of doctors' services in relation to the cost of other goods and services in society."

He added that the governing council will meet again in December, or earlier if necessary, to consider the profession's economic position in the light of the legislation.

Social Planning Council

How do libraries function?

Mrs. Heather Gardiner of the Haliburton County Library Board was the guest speaker when the Haliburton County Social Planning Council held their meeting on Thursday, September 25th at the Haliburton County Library at Haliburton.

Heather gave a most interesting, informative and delightful talk on books - and we came away with a much better understanding as to how libraries function, and the very special place books have in our lives.

A few points are as follows: 1. books are arranged in sequential order, and classified according to the subject - for instance, books on religion are in the 200's, law on the 300's, medical science in the 600's and so on.

2. Heather suggested we browse among the children's books, for many of these provide excellent reading for adults. Children find emotional release in books, they

need some nonsense, and have a real need to laugh.

3. A local history collection has been started, and hopefully microfilm or better still "micro-fiche" will be used to document this.

4. A collection has been started on "talking books" and a start made also on a film strip collection.

5. Some cassettes on children's stories and a

GOOD collection of films are available from the library.

The basis of funding libraries has changed recently, and because we are classified as a "County" library system, a substantial Provincial grant is provided.

There are 9 outlets within Haliburton County, and further information may be obtained from these.

Haliburton Chamber of Commerce news

Minutes of the Annual Meeting, held at the Haliburton Highlands Secondary School on Wednesday, October 1st, 1975, at 8 P.M.

IN THE CHAIR: President Bill Foote.

Bill Foote introduced Art Ward, Annual Meeting Chairman to chair the first portion of the meeting. Art Ward introduced the following panel to report to the membership and accept questions from the floor. Bruce Henry - Information Booth - A report was given on the operation of the booth by Anson, Hindon and Minden.

Bob McRae (Ministry of Industry & Tourism) - Getting Haliburton back on the map. An explanation was given as to why Haliburton was left off the map inadvertently. Mr. McRae assured the membership that through improved communications at our office and C.O.T.A. that Haliburton would be well represented in the next issue, to go to press in November.

George Coling - C.O.T.A. President-Promotional Coverage 1976. Mr. Coling explained the advertising promotion plans of Central Ontario Travel Association already underway. This campaign on radio, in newspapers, posters and literature runs from now till February 1976 and will cost about \$35,000 featuring the "Get A Way Country" theme.

Don Nye - Lure book and Sportsman Show 76 - Plans for this advertising was presented and discussed. These efforts proved very successful in 1975 and will be carried on in much the same

manner.

Bob Bishop Sr. - Development of Industry: - It was explained that the Haliburton County Economic Development Commission has been resurrected. It was County Council's decision to work towards separate funding of this commission, and for that purpose \$2,000 of the grant to the Chamber of Commerce was re-allocated to the Commission. Full co-operation between the Chamber and the Commission was assured.

Art Ward introduced the guest speaker - Mr. Bill Elliot, Managing Director of The Eastern Ontario Travel Association.

Gerald Barry - Thanked the guest speaker and presented him with a token of our appreciation.

Bill Foote - opened the General meeting and introduced the existing Board of Directors. Retiring directors were thanked for their years of service and it was noted that there was a total of over 50 years service among them.

PRESIDENTS REPORT: - Bill Foote gave a summary of the accomplishments of the Chamber over the past year. He noted that much has been made of the fact that the Chamber had experienced difficulty in obtaining a quorum at previous meetings, but that more probably a result of apathy in that there were no serious criticisms of the functions of the Chamber.

Minutes of the May, 1974 General Meeting were read by the Secretary Manager. MOTION: Moved by Art Ward and 2nd by Don Nye that the minutes be adopted as read. Carried.

FINANCIAL REPORT: The Financial report as presented by Dawson and Gray was distributed and read by Finance Chairman Grenville Martin.

MOTION: Moved by Grenville Martin, 2nd by Bruce Henry that the financial statement be adopted. Carried.

MEMBERSHIP REPORT: - Dennis Waymouth, membership chairman reported that we had gained 35 new members in the last two months bringing our membership up to 219. This was an increase of almost 20% but still a long way from the 300 members we felt we should have.

SECRETARY MANAGER'S REPORT: - Bob Stinson reported that after only one month on the job he could hardly give a full report on the activities. Memberships have been coming in well and things looked very encouraging. About 100 calls had been made in all parts of the county with very good reception. It was stressed that we avoid the "Tourist Bureau" image given the Chamber and pointed out the various other activities we are involved in. The main job as the Secretary Manager says it is to "Sell Haliburton" not to just the Tourists, but to everyone that will listen, including our own residents.

Bill Foote asked for any new business. MOTION - Moved by Bruce Henry, 2nd by Dale Anthes, that Dawson and Gray be retained as auditors for the Chamber of Commerce for the year 1975-76. Carried.

Gerald Barry, Chairman of the nominating committee presented the slate of nomi-

nations as follows and moved they be accepted, 2nd by Bruce Henry. Carried. SLATE: R. Barr, R. Bishop Sr., B. Bolin, D. Casey, S. Cooper, L. Craigmyle, J.

Canadians pay less than Americans

The premium rates paid for life insurance by Canadians are amongst the lowest in the world, reports The Canadian Life Insurance Association.

On average, says the Association, the premium rates paid by Canadians in recent years have been about 10 per cent lower than those paid by people in the United States.

Average Ontario family owns \$29,800 of life insurance

The average family in Ontario now owns \$29,800 of life insurance.

This compares to a national average of \$28,200. Ontario's ownership of life insurance is second to that of Quebec with \$31,000 per family.

Hogg, D. Nye, D. Stewart, J. Teljeur, M. Vuksic, D. Waymouth.

Bill Foote asked for nominations from the floor. Larry Perrott was nominated by Gerald Heywood - 2nd by Richard Parrisotto, Bob Patton was nominated by Sinc. Nesbitt - 2nd by Don Nye. MOTION: - Moved by Don Nye and 2nd by Bruce Henry that nominations be closed. Carried.

Bill Foote asked Mr. Bill Elliot and Mr. Bob McRae to serve as scrutineers and had the ballots distributed.

A recess was called for coffee and donuts while the ballots were collected and

counted.

Bill Foote: - Called the meeting to order and introduced the new Board of Directors.

MOTION: - Moved by Bob McRae, and Bob Bishop Sr., that the ballots be destroyed. Carried.

Bill Foote announced the next Directors meeting would be held at Haliburton Highlands Secondary School, October 2nd, at 8:15 p.m. (N.B. this was subsequently changed to Sunday, Oct. 5th at 8 p.m. at the school).

MOTION: Moved by Ron Barr, 2nd by Dennis Waymouth that the meeting adjourn. Carried.

Natural Resources news

SHORT DEER SEASONS IN THE LINDSAY DISTRICT

From Nov. 3 through to Nov. 5 a deer season will be open in Cavan Twp., in Peterborough County, Manvers and Mariposa Townships in Victoria County, the Township of Scugog (formerly Cartwright, Reach and Scugog Townships) and the Town of Newcastle (formerly Clarke and Darlington Townships) in the Regional Municipality of Durham. Dogs are prohibited on this hunt and only shotguns may be used. As these townships have certain by-laws pertaining to hunting within their jurisdictions, it is advisable to contact the appropriate municipal office for information in this regard.

ARCHERY DEER SEASONS IN THE LINDSAY DISTRICT

An archery deer season will be open from Nov. 3 to Nov. 30 in the townships of Hope, Hamilton and Haldimand in Northumberland County. Dogs are prohibited on this hunt.

An archery deer season is also open from Oct. 27 to Nov. 2 and from Nov. 6 to Dec. 31 within the boundaries of the Nonquon Provincial Wildlife area, located in the township of Scugog, Regional Municipality of Durham.

Archery hunting is prohibited during the 3 day shotgun season Nov. 3, 4 and 5. Dogs are also prohibited on this hunt.

LINDSAY DISTRICT PROVINCIAL PARKS HAVE A BUSY SEASON

Another busy summer season has passed at the Provincial Parks within the Lindsay District of the Ministry of Natural Resources. The following statistics prove that despite high fuel costs and general inflation,

camping still had a great appeal for many people this summer.

Lindsay District Park Statistics May - Sept. 30

Balsam Lake. Total Visitors for 1974 - 132,030; 1975 - 122,268; Total Campers 1974 - 31,170; 1975 32,457; Total Camper Days - 1974 - 98,979; 1975 - 93,250.

Darlington. Total Visitors 1974 - 147,816; 1975 - 185,362; Total Campers 1974 - 37,996; 1975 - 42,329; Total Camper Days 1974 - 53,833; 1975 - 65,411.

Emily. Total Visitors 1974 - 141,611; 1975 - 190,971; Total Campers 1974 - 21,230; 1975 - 21,019; Total Camper Days - 1974 - 48,438; 1975 - 53,931.

Serpent Mounds District. Total Visitors 1974 - 164,948; 1975 - 127,291; Total Campers 1974 - 12,493; 1975 - 12,726; Total Camper Days 1974 - 35,612; 1975 36,048. **Total:** Total Visitors 1974 - 586,405; 1975 625,892; Total Campers 1974 - 102,889; 1975 - 108,531; Total Camper Days 1974 - 236,862; 1975 - 248,640.

BALSAM LAKE PROVINCIAL PARK CARRIES OUT MAJOR ROAD RELOCATION: Winter visitors to Balsam Lake Provincial Park are asked to drive with caution when using the North Bay Drive through the southern road has been constructed north of the beach area. The old roadbed, running parallel with the beach, has been removed and is being landscaped at the present time. Since the new road will have a gravel base this winter, you are asked to drive with caution.

THE PITS & QUARRIES CONTROL ACT, 1971

By a order in Council, 142 additional townships were designated effective May 1, 1975 under the Pits and

Quarries Control Act, which regulates the operation of gravel pits and quarries. Included in the list were the geographic townships of: Bexley, Eldon, Mariposa, Scugog, Cartwright, Fennelon, Verulum, Ops, Cavan, Emil, Harvey, Smith, Ennismore, Otonabee, South Monaghan, Alnwick, Asphodel, Belmont, Douro, North Monaghan and Dummer. We would like to remind

all pit owners and operators, in the foregoing list of Townships, that if they wish to continue their operations after November 3rd, 1975, they must have submitted an application form, site plan and the prescribed fee no later than November 3, 1975 to the Ministry of Natural Resources, Lindsay, Ontario. Gems of Truth

Sound Thinking
If there ever was a right man at the right place and at the right time, it was James, the great leader in the early church. The Lord God, in His sovereign wisdom always as a servant of His duly trained and equipped for special occasions and times. We never have to put fleshly hands on the Ark of God to steady it, the Lord of the church rules over all and provides that which is necessary to maintain correct doctrine of His Church. All we need are servants who walk in obedience and act according to the known will of God. 2 Samuel 6:1-19.

Such a man was James, the man who gave great leadership in the difficult days of a growing movement among Judaism, which spread into Gentile territory and which brought about the necessity of policy changes unheard of up to that time. The Church had outgrown its cradle! Acts 15:13-29.

The Scriptures are silent as to the transition that changed a hesitant by-stander into a pillar of the early church. They only tell us that Jesus had a special interview with His unbelieving brother of former days. John 7:15, Mark 6:3, after

that He had arisen from the dead: Corinthians 15:7. When he did believe he became an exemplary Christian in character, conduct and service. It is said by tradition that James (the believer) spent many hours in the Temple in prayer, so much so that his knees were calloused like a camel's.

James was a firm believer that the "Grace" that saves, gives proof in the conduct and life of the saved one. This is why he has so much to say about works in his letter known by his name. Some people think he was at variance with Paul and the doctrine of Grace. Not so! James only stressed the great necessity of letting that implanted grace work its way out into the open where the unsaved can see that salvation is a reality not just profession. James 1:22. To be "hearers of the Word only and not doers" is self-deception. Yes, America has been hearers of the Word these many years, but when the response is considered the picture is not very bright.

There is a vast difference between "hearing" and "doing" and it takes more than a listening ear to honour that which is heard. The need to hear what the

"Guide Book" says and transmute that which we hear into good living is the challenge of our day. Just how much "doing" there is in proportion to the hearing in the life of the average person would make a fascinating study in our national life. For instance, the Bible is clear on its admonitions against strong drink. It points out the grim and inevitable end of indulgence in alcohol, Proverbs 23:29-32. It asserts that strong drink will destroy body, mind and spirit and warns the children of men not to tamper with this deadly potion. It plainly states that no drunkard shall inherit the Kingdom of God, 1 Corinthians 6:10, yet "hearing" all this, America spends thousands of millions of dollars for liquid death and bottled insanity! How many have "heard" yet never translated what they heard into daily conduct?

Every admonition of God's Word was given us for practical use and daily application to the problems of living. And James states, if we listen and do nothing about what we hear, we deceive ourselves only. The neighbours know whether we are hypocrites or true believers far better than most of our pastors do. It is possible to be a good Bible student or a capable teacher and yet live a life dominated by selfish purposes and spent for the pleasures of this word only. To be "doers" of the Word is to embrace its standard of life in the "Gospel that

saves" then that life will become useful to the Lord as He is allowed to lead that saved one "into the glorious liberty of the children of God", Romans 8:21 and "free from the yoke of bondage". Galatians 5:1 and Acts 15:10.

Regional Development incentives to help eight firms in Canada

OTTAWA - October 14, 1975 - The Honourable Marcel Lessard, Minister of Regional Economic Expansion, today announced that eight firms across Canada have accepted development incentive offers from his Department. An estimated total of 141 jobs is expected to be created by these projects.

QUEBEC REGION

Dubau & Lapointe Limited of Drummondville has accepted an offer of approximately \$61,000 for the expansion of its facility, which manufactures steel frames and beams. The project is expected to create an estimated 50 jobs. The offer is based on a rate of 20 per cent of the approved capital costs, estimated at \$307,000.

St. Lawrence Plywood Boxes (1974) Ltd., of St. Louis de France, Champlain County, has accepted an offer of approximately \$63,000 for a new-product expansion of its facility to manufacture wooden spools. The project is expected to create an estimated 29 jobs. The offer is based on a rate of 25 per cent of the approved capital costs, estimated at \$150,000, plus 15 per cent of the approved wages and salaries, estimated at \$171,000.

Distribution Italie Inc. of Matane has accepted an offer of approximately \$32,000 for a new facility to manufacture pizza, egg rolls and various sauces. The project is expected to create an estimated 18 jobs. The offer is based on a rate of 25 per cent of the approved capital costs, estimated at \$70,000, plus 15 per cent of the approved wages and salaries, estimated at \$98,000.

Salaison Rock Forest Inc. of Rock Forest has accepted an offer of approximately

\$43,000 for the establishment of a pork-processing plant. The project is expected to create an estimated eight jobs. The offer is based on a rate of 25 per cent of the approved capital costs, estimated at \$132,000, plus 15 per cent of the approved wages and salaries, estimated at \$69,000.

Industries Espadon Inc. of Princeville has accepted an offer of approximately \$16,000 for the expansion of its facility, which manufactures aluminum boats. The project is expected to create an estimated five jobs. The offer is based on a rate of 20 per cent of the approved capital costs, estimated at \$80,000.

Abattoir Achille Trahan Inc. of Yamachiche has accepted an offer of approximately \$34,000 for the expansion and modernization of its abattoir. The project is expected to create four jobs. The offer is based on a rate of 20 per cent of the approved capital costs, estimated at \$174,000.

ONTARIO REGION

Mr. Mario Clara, acting on behalf of a company to be incorporated, has accepted an offer of approximately \$42,000 for a new facility at Thunder Bay to manufacture metal products. The project is expected to create an estimated five jobs. The offer is based on a rate of 25 per cent of the approved capital costs, estimated at \$113,000.

Citizens get additional housing in Peterboro

Peterborough, Oct. 15, 1975 - Central Mortgage and Housing Corporation today announced the approval of a loan for \$1,432,600 to Citi Centre Peterborough, Ltd., for the construction of 92 apartment units.

Charles Huffman Ltd., will erect the six storey structure which is the last phase in a four building development. The other three buildings contain a total 310 units of mixed family and senior citizens apartments.

The Citi Centre Peterborough Ltd., development is bounded by King, Sherbrooke, Aylmer and Bethune Streets.

This latest addition will be comprised of 90 junior one-bedroom units and two, two-bedroom units. Underground parking will be provided for 73 cars and the entire development is near shopping and other amenities.

Rents are estimated to be

approximately \$25 below the normal market rates.

Provided under the National Housing Act the loan is for a term of 50 years at eight per cent interest.

Choir sponsors motion picture "That's Entertainment!"

Metro-Goldwyn-Mayer's "That's Entertainment!" is a fabulous new presentation of the greatest moments from the greatest movie musicals ever made, memorable film classics from the years 1929 to 1958, which were honored with 126 Academy Award nominations and 38 Oscars, including many as Best Picture of their year.

The time spanned was Hollywood's Golden era, and MGM's musicals were the best of the best. "Do it big, do it right and give it class" was the studio dictum, and "That's Entertainment!" presents the choices from nearly 100 films produced under that demand for excellence. Many are now shown for the first time.

Written, produced and directed by Jack Galey, Jr., with Daniel Melnick as executive producer, "That's Entertainment!" uniquely blends newly-filmed accounts of the personal memories of 11 of the stars who were at MGM during the making of these films with a panoramic retrospective of unforgettable musical sequences from them. The film is released by United Artists, an entertainment

service of Transamerica Corporation. It makes its local debut Nov. 5th at the Beaver Theatre, Minden, one showing 7:30 p.m.

The eleven stars who serve as narrators are, alphabetically, Fred Astaire, Bing Crosby, Gene Kelly, Peter Lawford, Liza Minnelli, Donald O'Connor, Debbie Reynolds, Mickey Rooney, Frank Sinatra, James Stewart and Elizabeth Taylor. All were part of the mystique of MGM, now observing its Golden Anniversary year, and each has his own memories of the studio, the films and the creative talent, those behind the camera as well as those who glamorized the movie screen.

"That's Entertainment!" - a title inspired by the rousing song from "the Band Wagon," - is the product of an extremely ambitious undertaking. After studying a staggering list of titles, Jack Haley, Jr., personally screened over 200 musical movies from MGM's unequalled library of favorites. That was the beginning of a two-year project that involved the selection, integration, and assemblage of musical moments from a thirty year span of MGM blockbusters.

MGM boasted it had "more stars than there are in the heavens." The sparkling parade of musical talent that sings and taps and waltzes and pirouettes across the screen in the new Metrocolor spectacular was unmatched by all the rival companies combined. Just a few of the artists who entertain in "That's Entertainment!" are Nelson Eddy, Jeanette MacDonald, Leslie Caron, Cyd Charisse, Bing Crosby, Xavier Cugat, Judy Garland, Kathryn Grayson, Maurice Chevalier and Gene Kelly.

Audiences will be remind-

ed of the versatility of the great stars when personalities not associated with the musical, such as Clark Gable, Cary Grant, Jean Harlow, Joan Crawford, Robert Montgomery, and James Stewart flash on the screen singing and dancing.

Says Haley, "What we have assembled represents at least a quarter of a billion dollars worth of film, the music of the greatest song writers of the century and the important works of scores of top directors, producers, scenarists, musicians and choreographers. But more

important than all the statistics, it is simply great entertainment."

Additional music for "That's Entertainment!" was adapted by Henry Mancini, a fitting choice

because of the 13 Academy Award nominations and three golden Oscars to his credit.

It is being sponsored by the Carnarvon United Church Choir.

"We Sell the Earth and Insure its Contents"

Hall's Lake news

Wet weather and cloudy skies over the week-end kept the travellers and cottagers from coming up in any great numbers, although Friday and Saturday did give us some much needed sunshine.

At the recent Public

Stanhope Airport Meeting, the same Committee was re-appointed, with Mr. Tom Nunn as President. Mr. Harry Davis is the Council Representative.

Mrs. Elizabeth (Lizzie) Johnson has gone to spend some time with her nephew

and his family in Fort Erie.

Mrs. Marjorie Ferguson has returned to her Toronto apartment.

The Archie Neils of Kushog, near Ox Narrows, had their friends from Toronto, the William Abbotts with them for the week-end.

Ducks Unlimited requires new film

Winnipeg - "Vital Heritage - Swamps, Bogs and Marshes" is the title of the film recently acquired by Ducks Unlimited (Canada) for inclusion in their provincial film libraries across Canada. The 15 m.m. full color film, which is 28 minutes in length, shows in colorful fashion our heritage of bogs, swamps and marshes and how their once great abundance has been reduced by a century of drainage that has been given new emphasis by the demand for food crops.

Produced by the Minnesota Foundation through a grant by the Northwest Area Foundation, this film vividly portrays the close relationship between wetlands and the wildlife dependent on them for habitat. These

wetlands are equally as important to waterfowl as they are to other wildlife species - pheasants and other upland game birds, white-tailed deer, fur bearers such as muskrat and mink, a multitude of small animal

species and song birds, and even several species of fish.

This film, which zeroes in on the positive values of wetlands, can be obtained for viewing free-of-charge from any of the Ducks Unlimited (Canada) offices.

NOTICE

Thank You

Use hot water wisely Save energy...Save money

Apart from home heating, a family usually consumes the most energy in producing hot water.

Here are just a few small things you can do, that can add up to a considerable energy saving. Turn off hot water taps so they don't drip, fill clothes washers to match the size of the load, wait until you have a full load before using a dishwasher and remember showers usually require less hot water than baths. Try not to use more hot water than you need.

Cascade

The Cascade electric water heater will give you a dependable supply of hot water, but it's up to you to use it wisely.

your hydro

Saturday evening they entertained Len and Doreen Stinson and Bonnie Holliday.

Mr. and Mrs. Roy Clarke and Mr. and Mrs. Grant Montgomery spent a week-end at their cottages.

Miss Anne Sutherland and Mr. Emmerson MacLaughlin were up for a visit from Burlington this week-end. Anne is our god-daughter and a delightful young lady working for a large Insurance Company in Toronto and commutes to Burlington each evening, via the "Go Train".

Glad to hear that Mrs. Jean Hunt hopes to return home from Minden Hospital on Tuesday. She speaks very highly of the care and attention she has received at the Red Cross Hospital.

Club 35 continues to hold its Monday night Euchre Parties and had a good turn-out last week. Everyone is welcome. Mr. and Mrs. Luther Wilson, fairly new people in this area, attended last week's game.

Hope everyone who read or heard over the News media that a survey for Toilet Study has cost the public \$79,000. (and then it is only 40% completed) will write to their Member of Parliament about this unnecessary expense. Also, the carpets laid in the new Mirabel International Airport, north of Montreal costing \$458,418. They seem to have so many people working in Ottawa trying to think up ways of spending money that they come up with some pretty impossible ideas. Where will it all end?

The overflow of clothing from the Boutique at Hyland Crest Boutique is being cleared out for the Sale at the United Church on the 25th of

October. The funds we understand will go back into the Auxiliary and still used for the bus or Christmas gifts or whatever is most needed for the Residents. Christmas is coming and we always shop for something each of the residents wants or needs.

Mr. Edwin Hewitt is back in the Minden Red Cross Hospital. We trust he is feeling better again soon.

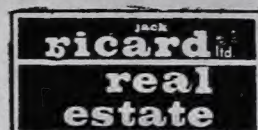

If anyone having News Items for this column within the next two or three weeks will please contact Miss Marjorie Johnson at 489-2056, we would appreciate it. She has graciously consented to pinch-hit for me.

Thank-You

I would like to express my sincere thanks to all my friends and relatives for the gifts, flowers, cards and phone calls which I received while I was a patient in Civic Hospital, Peterborough and also since I came home.

Special thanks to Rev. Smith for his prayers and visits. Also thanks to Dr. Chapman, Dr. Butt and the nurses on the 5th floor of the Hutchinson Wing for their excellent care.

Mae Cooper

Dance to follow at the Lloyd Watson Memorial Centre, Wilberforce at 9:00 p.m. All friends and relatives welcome.

In Memoriam

STEVENSON In fond and loving memory of our mother, Elizabeth Whistle Stevenson whom God called home October 19th, 1973. Life is like a river, And death is not the end. There is a fairer and lovelier view Beyond the river's bend. Lovingly remembered by Evelyn and Jim.

In Memoriam

STAMP In loving memory of my dear son, Leon George, who was killed in a car accident on October 12, 1973. I cannot keep from wondering

No matter how I try
In my sad and troubled heart
I keep on asking why
Friends may think I've forgotten
When at times they see me smile
But they little know the heartache
My smiles hide all the while.
Many a silent tear is shed
When I am all alone
When I think of you Leon
The one I called my own
Its been two long and lonely years
Since you were called away.
I will always remember the way you looked
The way you spoke and smiled
The little things you said and did
Are with me all the while.
You shared my life, my love,
My hopes and tears
Thank you for those precious years.
Oh I miss you so, sleep well my darling son.
Sadly missed and always remembered by mother, Hazel, Jack, Kathy, Debbie Irvine.

STAMP In loving memory of a dear mother and grandmother, Ethel Louise Stamp, who passed away on October 12, 1963.

When twilight hour draws near
And sunset flames the sky
We think of you, dear mother
And the happy days gone by.
Thoughts of you come drifting back
Within our dreams to stay
To know that you are resting
When the twilight ends the day.
Sadly missed and always remembered by daughter, Hazel, son-in-law Jack and grandchildren, Kathy, Debbie.
